

# CENSUS OF INDIA 1951

VOLUME X

RAJASTHAN AND AJMER

PART II A

TABLES

*By*

Pt. YAMUNA LAL DASHORA B.A., LL. B.,  
Superintendent of Census Operations,  
Rajasthan and Ajmer.

---

JODHPUR.

PRINTED AT THE GOVERNMENT PRESS,

1953.

## THE CENSUS PUBLICATIONS.

---

The Census Publications for Rajasthan and Ajmer will consist of the following volumes. All volumes will be of uniform size, demy quarto  $8\frac{3}{4} \times 11\frac{1}{4}$ " with the exception of District Census Handbooks and Primary Census Abstract which will be of Fcap size:—

1. Part I-A:—Main Report ( narrative ) containing six chapters in addition to an Introduction. 422 pages.
2. Part I-B:—Subsidiary Tables & District Index of Non-agricultural Occupations. Over 450 pages.
3. Part I-C:—Appendices. 210 pages.
4. Part II-A:—Tables other than Economic Tables. 461 pages.
5. Part II-B:—Economic Tables. 323 pages.
6. District Census Handbooks one for each District in Rajasthan and one for Ajmer State as a whole. Each volume contains (1) an Introductory essay giving a brief description of the district, (2) a review of population figures, (3) District Census Data at a glance, (4) District Tables, and (5) Primary Census Abstract or Village Directory which gives the code number of every village, its name, area, total population, number of houses, number of literates and population classified into eight livelihood classes. It also shows the distance of railway station, police post, school, hospital etc. In all there will be 26 volumes.
7. Primary Census Abstract or Village Directory tehsilwise, bound separately, for each district containing the same information as in the Village Directory of District Census Handbooks.

## P R E F A C E.

---

The Census of 1951 was taken between the 9th February and the 3rd March, 1951 (inclusive). The first twenty days from 9th February were employed in taking a house to house count of every individual in the State and recording his return on a census slip. The slip was thereafter copied on the National Register of Citizens. The sunrise of the 1st March was the reference date for verification of this enumeration and three days from the 1st to the 3rd March were employed in verifying the record written up to the midnight of the 28th February. Births which were not recorded in the first round were now recorded, deaths which had occurred between the visit on the first round and sunrise of the 1st March were cancelled, and new arrivals between the date of the first round and the reference date were recorded provided it was ascertained that they had not been recorded to their knowledge elsewhere.

Simultaneously, the National Register of Citizens, containing the record of every individual was copied from the pad of slips. This was designed to act as a check to the work done by the enumerator.

The twenty three days period of enumeration, devised primarily to lighten the burden of unpaid enumerators, was also calculated to neutralise the considerable volume of short-term migration which is a notable feature of the population of the State.

The following is a list of questions put to every individual in the country:—

- (1) Name including father's or husband's name and relationship to the head of the house hold.
- (2) What is your: -
  - (a) Nationality ?
  - (b) Religion ?
  - (c) Social group ?

(9) Part. II—Are you ordinarily:—

- (a) an employer ?
- (b) an employee ?
- (c) an independent worker ?

(10) Principal means of livelihood.

(11) Secondary or subsidiary means of livelihood.

(12) Can you:—

- (a) Read ?
- (b) Write ?
- (c) Read and write ?

( Give the highest form reached or examination passed)

(13) In case of persons afflicted by any of the infirmities, namely, Blindness, Insanity, Deaf-mutism, Leprosy, write the name of the infirmity.

(14) Sex (whether male or female).

Answers to certain questions were to be recorded with the use of contractions or abbreviations and full answers to other questions.

Fuller tabulation for answers to question 6 was made than has been presented in this volume. The results will not be published, but kept in the unpublished records of the Census Department.

Question 13 was not an all India question, but devised by the Governments of Rajasthan and Ajmer.

The following is the facsimile of a Census enumeration slip.

#### Facsimile of a Census Slip

13.	14

For facility of reference the following brief instructions issued to enumerators are reproduced;

Census questions with brief instructions:—

- (1) Name and relationship to head of household—After the name write 1 for the head of the household. For near relations viz. wife, husband's son, daughter, brother, sister, father, mother, write actual relationship in full. For other distant relatives like cousins, etc. write 2. For unrelated persons like guests or visitors or friends, or menials or domestic servants living in the household write "0".
- (2) Nationality, religion and Social Groups—Part (a) Nationality: Write "I" for all Indian nationals, for others write nationality in full. Part (b) Religion: Write "१" for a Hindu, "२" for a Muslim, "३" for a Christian, "४" for a Jain, and "५" for Sikh. For others, write fully as actually returned. Part (c) Social Groups: Write "१" for an Anglo Indian, write "०" for any person who says he is not a member of any caste or tribe. Write 1 for any person who is a member of one of the castes mentioned in the list of non-backward castes supplied to you. In all other cases, write the name of the caste or tribe as returned by the person enumerated.
- (3) Civil Condition—Write "१" for unmarried, "२" for married, "३" for widowed; if divorced, write "४".
- (4) Age—Write age last birthday, i.e., the actual number of completed years. Write "0" for infants below one year of age.
- (5) Birth place—Write 1 for every person born in your district. For those born in other districts of Rajasthan, write the name of the district, and the name of the state or country, where he was born if born outside Rajasthan.
- (6) Displaced person from Pakistan.—Apply the definition of a displaced person as given in the detailed instruction. If the person enumerated is not a displaced person, write "0" in both compartments. If he is a displaced person, write the date of arrival in India in the first compartment, and the district of origin in Pakistan in the second compartment.

hood neither as an employer nor as an employee nor as an independent worker (i. e. those who live on the income without any work e. g. pensioners etc.). Write the answer in the second compartment.

- (10) Principal Means of Livelihood. — The answer to this question should be recorded on every slip. If the slip relates to a self-supporting person, record his principal means of livelihood. If the slip relates to a dependant (whether earning or non-earning), record here the principal means of livelihood of the self-supporting person on whom he is dependant. The means of livelihood which provides the largest income is the principal means of livelihood for a self-supporting person who has more than one means of livelihood. In the case of other self-supporting persons, it is the only means of livelihood.

Use the following contractions:

Write (ज. खु. क.) for a person who cultivates land owned by him; (क. ल.) for a person who cultivates land owned by another person; (म. क.) for a person who is employed as a labourer by another person, who cultivates land; (ज. रे. क.) for a person who receives rent in cash or kind in respect of land which is cultivated by another person.

For all other means of livelihood, write fully and clearly what the person does in order to earn his livelihood and where he does it. Avoid vague and general terms. Do not merely write "Service" or "Labour". If you are enumerating a trader, describe the articles in which he trades and state clearly whether he is a wholesale trader or a retail trader. If you are enumerating a factory worker, give the name of the factory in which he works, or the product he makes or helps in making.

- (11) Secondary Means of Livelihood. — For a self-supporting person who has more than one means of livelihood, write the means of livelihood next in importance to his principal means of livelihood. For an earning dependant, write also the means of livelihood which provides the earning. Use abbreviations given in question 10 for the four agricultural classes.

For a self-supporting person who has only one means of livelihood, write "0" in this question. In the case of non-earning dependant also, write "0" in this question, because only the principal means of livelihood of the person on whom he is dependant needs to be recorded in question 10 in his case.

- (12) Literacy and Education. — Write "0" for a person who can neither read nor write, write "प." for a person who can read but cannot write; write, "प. लि." for a person who can both read and write. If a person who can read and write, has also passed any examination in which a written test has to be passed, note the highest examination passed in full, instead of writing "प. लि."

- (13) Leprosy means corrosive leprosy and should not be confounded with leucoderma. Blindness means total blindness of both eyes: deaf-mute means one who is both deaf and mute.

- (14) Sex. — Write "ग." for a male and "स्त्री" for a female. Eunuchs and hermaphrodites should be treated as males.

The definition of a 'Displaced person' is as follows:—

"A displaced person" means any person who has entered India having left or being compelled to leave his or her home in Western Pakistan on or after the 1st March, 1947 or his/her home in Eastern Pakistan on or after the 15th October, 1946 on account of civil disturbances or the fear of such disturbances or on account of the setting up of two dominions of India and Pakistan. "Children" born to displaced persons after the entry in the Indian Union should not be treated as displaced persons.

It will be seen that Union Tables C. II, C. III, C. IV and C. V have been prepared on a 'Sample population'. The Registrar General for India's instruction for taking the 'Sample' was as follows:—

"Break each pad (of 100 enumeration slips) and stack the slips of the pad, and 'cut' the stack as in a card game. Place the lower portion above the upper portion and then deal the slips into the pigeonholes. You should deal the slips into pigeonholes in the order of 1, 2, 3, 4, 5, S, 6, 7, 8 and 9 successively. All the time, you should watch the slips of "Displaced persons". If you come across any slip of a Displaced person, deal it in the pigeonhole of 'Displaced persons'.

Hence it will be seen that the sample is not a sample of the total population but of the latter excluding the 'Displaced population'.

The Census of 1951 claims several unique features absent in previous Censuses of India. It will be of interest to mention them very briefly:—

- (1) Quite the most unique, and certainly the most stupendous and valuable, feature of this Census was the preparation of an account of every mauza or residential village in India containing its Jurisdiction List number, its authorised name, its area in acres, the number of its occupied houses, its total population and number of literates divided into males and females, and its population divided into eight main livelihood classes, four agricultural and four non-agricultural, each further subdivided into males and females.
- (2) District Handbooks have been the second unique feature of this Census. This Handbook series to some extent brings the old District Gazetteers up-to-date in both parts : (a) general account and (b) statistics. The former part is greatly abridged while the latter part is expanded a great deal for each district and contains much more Census statistics than were ever before presented but it does not contain other departmental statistics.
- (3) The third unique feature of this Census was the preparation of a complete National Register of Citizens purporting to contain a full Census record of every person counted at the Census of 1951. This was prepared for each village and now forms the basis of the Union's Electoral Rolls.
- (4) The fourth unique feature of the Census of 1951 was the classification of the entire population according to its economic status into (a) dependency and (b) employment. Under (a) the population was divided into (1) Self-supporting persons, (2) earning dependants and (3) non-earning dependants, and under (b) into (1) employers, (2) employees and (3) independent workers.

- (5) The fifth new feature of this Census was the preparation of an account of households and families and their composition (Union Table C. I.).
- (6) The sixth new feature was the tabulation by single year ages of a much larger sample population than in previous Censuses (Union Table C. V.).
- (7) The seventh new feature was that no smoothing formulae were applied to the age returns as furnished by the respondent. The actual ages returned have been shown in groups and single years.
- (8) Last but not the least in importance is the Sample verification of the Census Count by Magistrates.

I cannot acknowledge too fully the debt I owe the following gentlemen in the preparation of the Census Publications.

Shri P. N. Kaul, Central Tabulation Officer, New Delhi.

Shri O. B. Mathur, Deputy Census Superintendent, Jodhpur.

Shri Abdul Ghaffar, Deputy Census Superintendent, Udaipur.

Shri Harish Chandra Totuka, Deputy Census Superintendent, Jaipur.

Shri Shyamlal Bhatnagar, Assistant Superintendent of Census Operations.

Y. L. DASHORA.

TABLE A.—I

Area, Houses and Population

---

---

This table shows for each district in the State, the area, number of towns and villages, number of occupied houses and total, urban and rural population, males and females separately.

The districts have been arranged according to natural divisions.

The area figures given in this table are those received from the Surveyor General of India. The Director of Land Records, Rajasthan Government has supplied different figures which have been published in the District Census Handbooks etc. Since 1941, there has been a great change in the area of Rajasthan, namely, (1) transfer of Danta and Palanpur States as well as Tehsils of Delwara and Abu of former Sirohi State and Abu District from Rajasthan to other States and (2) 67 villages from the bordering districts of Rajasthan have been transferred to the neighbouring States, 78 villages from the districts of neighbouring States of Rajasthan have been transferred to Rajasthan. This gives a net addition of 11 villages to Rajasthan. The urban population of the State is 2,649,367 i.e., 17.3 per cent of the total population.

*Definitions:—*

*Urban population.*—means the population of places recognised as cities or towns and *Rural* means that of all villages including hamlets.

*City.*—A city is normally defined as a town with a population of one lac and over, but this definition has been relaxed in Rajasthan, and towns with a population of 50,000 and over have also been treated as cities, to bring the definition in uniformity with the one adopted in the Municipal Act.

*Town.*—A town has been defined as every municipality, every cantonment or every place of usually not less than 5,000 inhabitants or any other place which was treated as a town, for special reasons (possessing urban characteristics) by the State Census Superintendent.

*Village.*—A village means a revenue Mauza whose revenue is realised under a separate name. It includes all hamlets attached to it. A revenue Mauza falling within the limits of a town or city has been treated as a part of the town or city. Uninhabited villages have not been included in this table.

*Hamlet.*—A hamlet is a group of houses occupied by people who cultivate land, the revenue of which is credited (not separately but) with the parent village.

N. B.—Hamlets attached to cities or towns but are not included in them have been treated as separate villages.

*House and a household.*—A house is any dwelling having a separate main entrance while a household is any commensal unit living in a census house.

*Occupied Houses.*—"Occupied Houses" were those which were used actually for the residence of human beings.

*Houseless population.*—Houseless population includes persons who had no numbered house in Rajasthan to live in. Inmates of institutions includes persons found in Institutions such as Jails, Asylums, Hostels, Boarding houses, Hospitals, Sarais, Dak Bungalows etc.

The following statement shows the number of hamlets, households, household population and the houseless persons and inmates of institutions in each district of Rajasthan and Ajmer States.

TABLE A.—II

## Variation in Population during fifty years

This table compares the population as ascertained at the Census of 1951, of each district of Rajasthan & Ajmer States as now constituted, with that of five previous censuses. Similar comparison is also made in respect of the natural divisions. The table also provides net variation in population since 1901.

The figures of the previous censuses as shown in this table have been compiled from the past Census reports, adjusted for territorial changes during the intercensus period in each district.

State and district totals effected on account of the transfers of enclaves are shown in the following table.

Serial No.	District	Adjoining State	Population of 1941 addition (+) subtraction (—)		
			Persons (3)	Males (4)	Females (5)
(1)	(2)				
1	Bharatpur	.. Punjab ..	{ +2,753 —398	+1,430 —215	+1,323 —183

7	Kotah ..	.. Madhya Bharat ..	{ +85 —347	+50 —187	+35 —160
Total (Net in Rajasthan)			+22,257	+12,422	+11,823

**Definition of Population.**—"Upto and including 1931 censuses the figures represented a *de facto* population. In 1941 enumeration was made on the principle of the house-dwelling population being recorded at its usual place of residence. This latter term was held to mean the house or room used or intended to be used for sleeping purposes over a period of three months or more. Persons who had a 'Usual place of residence' were recorded there whether physically present or not, unless they had moved out of Rajputana and Ajmer-Merwara. Casual visitors from other provinces found in Rajputana on 1st March and who stated that they had not been enumerated or, if being residents of Rajputana or Ajmer-Merwara, they had no usual place of residence in Rajputana and Ajmer-Merwara were enumerated on the spot where they were found on 1st March".

In the 1951 Census "All persons who were alive at sunrise on the 1st of March, 1951 have been included in the count. As a general rule, every person has been enumerated at his normal place of residence, subject to the following exceptions:—

- (a) Persons who were away from their normal place of residence throughout the period from sunrise on the 9th February, 1951 to sunrise on the 1st March, 1951 have been enumerated at the places where they were first found by an enumerator during the enumeration period or within three days thereafter; and
- (b) Persons without any place of residence have been enumerated at the place where they were found by an enumerator on the 1st March, 1951".

### TABLE A.—III

#### Towns and Villages Classified by Population

---

This table deals with the towns as well as villages taken together. They have been classified according to population into classes as shown in the heading of the table. The number of towns and villages belonging to each class and their population have been shown separately for each district.

For definitions of village, town, city etc. see fly-leaf to Table A-I.

## A. III—Towns and Villages

Serial No.	State and District	Total number of inhabited towns and villages	Total population			Total		
			Persons	Males	Females	Number	Males	Females
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)

TABLE A.—IV

Towns Classified by Population with Variations since 1901

The definition of 'town' has already been given in the fly-leaf to table A-I.

This table compares the population as ascertained at the Census of 1951, of each city or town of Rajasthan and Ajmer States, with that of five previous censuses, for the total population as well as each sex separately. In cases of towns whose figures of previous censuses are not available the net variation has not been shown.

As far as possible, adjustments have been made in the population when changes of area have taken place. In the case of newly created towns, unlike the past, no adjustments have been made, since these changes represent net increase in the urban population rather than expansion in area.

In all there are six cities and 212 towns in Rajasthan and one city and six towns in Ajmer State according to the present Census.

The following 70 places have been added to the list of towns in 1951.

<i>Name of District</i>	<i>Name of town</i>
Jaipur ..	Bandikui, Phulera, Sanganer, Bhandarej, Jolner, Phari, Moazamabad, Paota, Sikrai.
Sawai madhopur ..	Bonli, Mahuwa, Malarna Dargah, Wairpur, Khandar, Nadoti.
Bharatpur ..	Nadhai, Nagar, Sar Mathura, Baori, Rupbas, Sajan, Pahari.
Alwar ..	Kherli, Kotkasim, Lachhmanpura, Nimrana.
Jhunjhunu ..	Pilani, Mukundgarh, Bagad, Gulla, Parmanpura, Mandrela.
Sikar ..	Guhala, Reengus, Danta Rampah, Lach.

<i>Name of District</i>		<i>Name of Town</i>
Bhilwara	..	Gulabpura, Gangapur.
Bikaner	--	Gangashahr, Nokha Mandi, Bhinasar, Lunkaransar.
Churu	..	Ratannagar.
Ganganagar	..	Raisinghnagar, Sangaria, Gajsinghpur, Hindumalkot, Anupgarh.
Jalore	..	Ahore, Siana.
Pali	..	Takhatgarh, Raipur, Sewari.
Udaipur	..	Amet, Kanor, Kankroli, Bhim, Dhariawad.
Dungarpur	..	Sabla.
Sirohi	..	Pindwara, Roheda.
Kotah	--	Ramganjmandi, Indargarh.
Bundi	..	Lakheri Cement Works, Kapren.
Jhalawar	..	Dag, Gangdhar, Aklera, Pachpahar, Bhawani Mandi.
Ajmer State.	..	Pushkar, Bijainagar.

The following towns have been deleted from the list of towns in the Census of 1951.

<i>District</i>		<i>Town</i>
Sirohi	--	Erinpura, due to abolition of cantonment.
Kotah	..	Bhimganj Mandi, due to amalgamation with Kotah City.

Following the 1931 practice, all cities and towns have been arranged within each class, according to their population order in 1951 Census, and have been grouped in the following six classes:—

<i>Class</i>		<i>Population groups</i>
I	..	100,000 and over
II	..	50,000 to 100,000
III	..	20,000 to 50,000
IV	..	10,000 to 20,000
V	..	5,000 to 10,000
VI	..	Less than 5,000

The name of the local body functioning has been indicated by symbols within brackets e.g. M— Municipality, N. A. — Notified area, T. B. — Town Board.

The name of the district in which the (city or town) is situated is also given against the name of the town.

## A. IV—Towns Classified by Population with Variation since 1931

TABLE A—V.

Towns Arranged Territorially with Population by Livelihood Classes

Definition of 'Town' has already been given in fly-leaf to Table A-I.

In this table towns are arranged territorially and districtwise. Within a district, they are arranged according to the population. The name of local body functioning has been indicated by symbols in the brackets against the name of the town where such body exists. The letter 'M' denotes 'Municipality' 'T. B.' stands for 'Town Board' and N. A. for 'Not a body'.

The figures for livelihood classes I to III have not been given separately in the table but have been clubbed together. The order of livelihood classes has also been changed and the non-agricultural classes have been given before the agricultural class.

In the past censuses, the population was classified according to occupation. At the time the table has been prepared according to the means of livelihood class for the first time.

The figures shown against Jodhpur City include those of Jodhpur Municipality as well as Mahamandir, a suburb of Jodhpur consisting mostly of urban population.

A list of new towns added in the Census has been shown under Table A-IV. Similarly the towns which existed in 1941 and have now lost their status have also been shown there.

Bhimganj Mandi, a town in the 1941 Census has in the present Census been clubbed with Kotah City and its population has also been included in that of Kotah City.

## Population by Livelihood Classes

TABLE C—I

Household—Size and Composition.

This table has been prepared from sample households only.

2. The selection of the sample was done as follows—

- (i) In the Rural tracts, one village census block was selected out of every village block in each rural tract and in each block selected every tenth household. The first household was marked as sample household. This was done by dividing the total number of village census blocks by one hundred and by adding one to the remainder. The number thus arrived at was the first sample block. Every tenth household in the first sample block was then chosen for the sample. The first sample household in the tenth household was marked in the National Register of Citizens of the village as sample household. This was done by dividing the total number of households in each of the National Register of Citizens of the village by ten and by adding one to the remainder. The number thus arrived at was the first sample household in the block. Every tenth household from the first sample household was the subsequent sample household.
- (ii) In the case of urban tracts one town census block was selected out of every twenty blocks in each of the urban tracts and every fifth household was selected in each of the selected sample blocks.

The sample comes to approximately a little less than 1 in 1000 of the total.

This table shows the total number of households, the household population, the household population, and the size and composition of household population.

The figures are arranged under two broad groups—

- (i) Size of households, and
- (ii) Composition of households.

In (i) households have been classed—

- (a) "Small" if the number of persons is 2 or less.
- (b) "Medium" if the number of persons is 3 or 4.
- (c) "Large" if the number of persons is 5 or more.
- (d) "Very Large" if the number of persons is 6 or more.

In (ii) the members of a household are classified as follows—

- (a) Ration card holders.
- (b) Non-ration card holders.
- (c) Children.

TABLE C.—II

Livelihood Classes by Age Groups

---

This table shows the distribution of the sample population according to Livelihood Classes by Age Groups.

2. It has been prepared from the data collected from the 10 per cent sample slips separated at the time of initial sorting of the enumeration slips. The 10 per cent sample was taken out as follows—

3. Each enumeration pad which mostly consisted of 100 enumeration slips was taken, and the pack of slips was "cut" as in a card-game. The lower portion was placed above the upper portion and then the slips were dealt into the pigeon holes marked 1, 2, 3, 4, 5, 6, 7, 8, 9, respectively. If a displaced person's slip was encountered during this cutting, it was dealt into a separate pigeon hole marked "Displaced Person." All the slips contained in the pigeon hole marked "8" were taken as the 10 per cent sample slips of the general population.

4. No smoothing formula has been adopted in preparing the table as in the general census and the figures have been tabulated as actually returned in suitable numbers.

**TABLE C.—III**

---

**Age and Civil Condition.**

---

---

This table shows the distribution of population by Age Groups and their Civil Condition.

2. This table is also prepared on the basis of data collected from the 10 per cent sample slips of general population as in the case of Table C—II and the figures have been tabulated as returned without the use of any smoothing formula and the remarks contained in the fly leaf to Table C—II apply in this case also.

3. In this table, the figures for Divorced and Widowed persons are shown together. Separate figures for divorced persons can be seen in a Statement at the end of the table.

4. A comparison of the sex ratio of the sample population with that ascertained by total count (excluding displaced persons) has shown that males are slightly over represented in the ten per cent sample, whereas the number of females per 1000 males is 921 in Rajasthan and 925 in Ajmer in the total count (exclusive displaced persons), the corresponding sample count value is 914 in Rajasthan and 918 in Ajmer. The difference, though small, cannot be regarded as insignificant. The fact is brought to the notice of users of this table, as the figures of percentage shown in this table, which are worked out by a single addition of figures for males and females, do not give accurate idea.

5. It is of course, possible to compute figures for "persons". This should, however, be done—not by a single addition of figures for males and females— but by adding the figures for males and females separately with reference to the total count figures of males and females (excluding displaced persons); and then adding the raised figures for males and females.

10. *Journal of the American Medical Association*, 1997; 277: 1033-1038.

2. The table is also presented in the Appendix, Table 1, in the form of a ship's log, showing that the ship's position is determined by the time of day, the direction of the wind, and the direction of the current. At the same time, the ship's position is determined by the time of day, the direction of the wind, and the direction of the current.

3. In the 1970's, the U.S. government was concerned about the possibility of a nuclear war between the United States and the Soviet Union. In order to prevent this, the U.S. government decided to develop a nuclear defense system. This system was called the Strategic Defense Initiative (SDI) and was designed to protect the United States from a nuclear attack.

## TABLE C.—V

### Single Year Age Returns

---

This table shows distribution of sample population as returned on Single Year Age Returns.

2. This table was also prepared on the basis of data collected from the Single Year Age Returns of general population as in the case of Table C—II and the formulae for computing the same as returned without the use of any smoothing formula and the results are shown in the fly-leaf to Table C—II apply in this connection.

## C. V—Single Year

١

1 D. 111 - Mother: Taylor  
2 D. 111 - Father: [redacted]

U. I. pay show, from 1950 to 1952. The first two years were split up into two U. I. periods of one year each, and the third year was spoken about with the U. I. authorities, but it was not possible to be the same as that of the other years.

Further, the results of the regression analysis indicate that the estimated coefficients of the variables in the model are statistically significant at the 1 percent level of significance. This suggests that the model is a good fit for the data and that the variables included in the model are important determinants of the dependent variable.

TABLE D.—III

Scheduled Castes and Scheduled Tribes.

---

---

This table gives figures for Scheduled Castes and Scheduled Tribes

2. Under the "Constitution (Scheduled Castes) Order, 1950" and the "Constitution (Scheduled Castes) (Part C States) Order, 1951," the following castes have been declared by the President as Scheduled Castes in the States of Rajasthan and Ajmer respectively:-

*Rajasthan State*

- 1 Adi Dharmi
- 2 Aheri
- 3 Badi
- 4 Bagri
- 5 Bajgar
- 6 Bansphor
- 7 Bargi
- 8 Bawaria
- 9 Bhaud
- 10 Bhangi
- 11 Bidakia
- 12 Chammar

*Ajmer State*

- 1 Aheri
- 2 Bagri
- 3 Baisi
- 4 Bambhli
- 5 Bansphor
- 6 Baon
- 7 Bargi
- 8 Barigar
- 9 Bhandi
- 10 Bidakia
- 11 Chammar
- 12 Dabgar

*Rajasthan State (Contd.)*

- 13 Chura
- 14 Dabgar
- 15 Dhankia
- 16 Dheda
- 17 Dome
- 18 Gandia
- 19 Garancha (Mehtar)
- 20 Godhi
- 21 Jatia
- 22 Kalbelia
- 23 Kapadia Sansi
- 24 Khangar
- 25 Khatka
- 26 Kooch Band
- 27 Koria
- 28 Kunjar
- 29 Madari (Bazigar)
- 30 Majhabhi
- 31 Mehar
- 32 Mehtar
- 33 Mochi
- 34 Nut
- 35 Pasi
- 36 Raigar
- 37 Ramdasia
- 38 Rawal
- 39 Sarbhangi
- 40 Singiwala
- 41 Sansi
- 42 Thori
- 43 Tirgar
- 44 Valmiki

*Ajmer State (Contd.)*

- 13 Dhanak
- 14 Dhed
- 15 Dhobi
- 16 Dholi
- 17 Dom
- 18 Garoda
- 19 Gancha
- 20 Jatava
- 21 Kalbelia
- 22 Khangar
- 23 Khatik
- 24 Koli
- 25 Koria
- 26 Kuchband
- 27 Mahar
- 28 Meghwal
- 29 Mochi
- 30 Nat
- 31 Pasi
- 32 Raigar
- 33 Rawal
- 34 Sarbhangi
- 35 Saragra
- 36 Satia
- 37 Thori
- 38 Tirgar
- 39 Kanjar
- 40 Sansi
- 41 Nayak

3. Under the Constitution ( Scheduled Tribes ) Order, 1950, Bhils in Scheduled Areas of Rajasthan have been declared by the President as Scheduled Tribes. The Scheduled Areas are as follows :-

I. Dungarpur District except the following :—

( i ) Towns of :

Dungarpur  
Sagwara  
Galiakot

(ii) Villages of :

Pooth  
Aspur  
Sabla  
Bankoda

(iii) Police Station and outpost portions of the villages of:—

Kanba  
Vinya  
Dewai  
Bargana  
Mewda  
Kura  
Dhamola  
Ganeshpur  
Sarthuna  
Fatehpur

II. Banswara District except the following:—

(i) Towns of: —

Banswara  
Kushalgarh

(ii) Villages of: —

Ghatole  
Garhi  
Pratabpura  
Bagidora  
Talwara

(iii) Police Station and outpost portions of the Villages of:—

Khamera  
Bhagora  
Bhopatpura  
Anas  
Jagpura  
Bhondia  
Narwalia  
Shergarh  
Loharia  
Anthunia  
Chandji-ka-Gura  
Chandanwara  
Dhanpur  
Phalwa  
Ghaditejpur  
Solaopat  
Pipalkhunt  
Mandikhera  
Sadulpur  
Gangror  
Dungra  
Patan  
Khandu

### III. Partabgarh Tehsil of Chittorgarh District except the following:—

#### (i) Towns of:—

Partabgarh  
Deogarh

#### (ii) Police Station and outpost portions of the villages of:—

Hathunia  
Sangthali  
Kherat  
Kotri  
Suhagpur  
Ratanjana  
Phugatalao  
Salamgarh  
Arnoda  
Ninor

4. Under the Constitution (Scheduled Tribes) (Part C States) Order, 1950, Bhils throughout the State of Ajmer have been declared as Scheduled Tribes:

TABLE D.-V

---

(i) Displaced Persons by Year of Arrival  
(ii) Displaced Persons by Length of Stay

---

Table D.-V (i) gives particulars of the arrival of displaced persons in the United Kingdom from West Palestine. Displaced persons who did not clearly specify their country of origin are shown under the column "Country not stated."

2. The definition of "displaced persons" used in this table is: persons who have entered India, Ceylon, or other territories under the administration of the Government of India, or after the 1st March, 1947, or the 1st January, 1948, from Palestine, or after the 16th October, 1946, on account of civil disturbance in the territory of Palestine, as a result of the settlement of the two main groups of Palestine Arabs.

TABLE D.—VII

---

Educational Standards

---

This table shows the Literacy of the population by sex and its distribution among the various Educational Standards separately for Agricultural as well as Nonagricultural classes. Persons who do not come upto any of the standards specified in the Table and who are literate are classified under the first category "Literate". Literates do not include partially literates i. e. those who can only read but cannot write. The figures of literacy in this table have been obtained by sorting the slips, while those published in the Primary Census Abstracts have been copied from the abstracts of National Registers of Citizens prepared by the enumerators. This explains the reason of difference, if any.

## D. VII—Educational

## Standard 10' x 14'

TABLE-1

### Summary Formed by Administrative Unit

This table shows, again, variation of population by sex and age, and the distribution of population by livelihood, etc., for each of the Nagaland towns and districts. Tehsils with the corresponding rural population, however.

[illegible]

The above information is derived from the following sources: (1) the Census of the United States, 1950, and (2) the Census of the United States, 1960. The data are presented in the following table:

## E—Summary Figures by Administrative Units
